How Remy learns - and teaches

FOUR STEPS / ONE SOURCE-LINKED LOOP

EXPERT APPROVAL

Remy guides a learner and checks before saving

Deployment: Sliplane / Cloud sync: Supabase live

Synthetic demo data. Privacy checks are best effort.

From observation to guidance

One complete Notion-to-Outlook workflow

EXPERT INPUT

Screen + voice

The screenshot shows a Notion CRM interface with a sidebar on the left containing 'CRM / Opportunity', 'Overview', 'Records', and 'Activity'. The main content area is titled 'Example Customer / Proposal' and contains a 'Draft' section with a 'Customer' field (Example Customer), a 'Contact' field (demo@example.invalid), a 'Product' field (Service package A), and a 'Next action' field (Create proposal). A note at the bottom states 'Use the CRM record as the source of truth'. A 'NOT REAL DATA' label is visible in the bottom left corner.
